

Jarett Spuck Software Engineering

Boynton Beach, FL | jarettspuck@gmail.com | (561) 634-1274

<https://www.linkedin.com/in/jarett-spuck>

EDUCATION

Florida Atlantic University
Computer Science/Minor in Artificial Intelligence
GPA: 3.6/4.0

Graduation date: Bachelor of Computer Science
December 2024

RELEVANT COURSEWORK

Advanced Artificial Intelligence, Internet Computing, Data Structures and Algorithms, Principles of Software Engineering, Computer Operating Systems, Foundations of Cybersecurity, Advanced Logic Design, Python Programming

TECHNICAL SKILLS

Languages: Python, C/C++, Java, JavaScript, SQL

Web Development: HTML5, CSS3, Node.js, React, WordPress, Tailwind

Operating Systems: Linux, UNIX, UNIX shell, Ubuntu

Cloud Services: AWS (EC2, S3, Log insights, Lambda, CloudFormation, IAM)

Software: Visual Studio Code, MS Office, Wireshark

Hardware: LAN/WAN, Cisco Routers, Computer Hardware Assembly and Troubleshooting

PROJECTS

Web Scraper for Part Numbers and Prices: (*Cinch Home Services Internship*)

Developed a Python-based web scraper to compare part prices across all nine company-used websites. Outputs a JSON list of parts, including prices, shipping costs, and add-to-cart links, and uploads data to an S3 bucket. This tool is currently in production use. (Not on GitHub)

AI Discrete Math Tutor: (*University Showcase Project, Fall 2024*)

Designed an AI-powered e-learning platform with advanced features, including authentication, progress tracking, multi-input support (pen, photo, LaTeX), an interactive chatbot, and much more.

Portfolio Website: (*Personal Project*) Built a personal website showcasing skills, projects, and resume using HTML5, CSS3, JavaScript, and backend technologies.
